Built by Industry Experts Like You

Compliance doesn't have to come at the expense of efficiency. By leveraging cutting-edge technology, intuitive design, and years of industry expertise we make compliance a snap.

Ready to take control of environmental compliance?

See how our next-gen platform can help. Contact roi@titancloud.com to learn more.

TANK CONNECTION
Quickly Connect to Tank Monitors

Compliance begins by understanding what's in your system at any point in time. Easily gain access to your tank monitors to view real-time inventory data from your desktop or mobile device.

RELEASE DETECTION MANAGEMENT
Automated Daily Release Detection

Be ready for any regulator request by automatically tracking and analyzing your tank's daily release detection. And once a month, generate a Facility Compliance Report.

ALARM MANAGEMENT
Real-time Notifications

When a specific alarm is triggered, know exactly when to triage yourself or dispatch personnel to respond and keep your station operational.

ADVANCED FACILITY INSPECTIONS
Digitize Your Outdated Inspections

Digitize the way you audit, assess, and inspect your sites. With any device, you can collect critical data and report on the pressing items found during routine inspections. Plus, when the regulator comes, you'll have everything ready for their review.
